

# FTC's Placement Calculation Method

## **How job placement is measured:**

Placement of students that complete or graduate from a program and employed in field or related field to program studied, entered military, or continued education.

## **Definition of students included in cohort - Graduate and non-graduate completers**

Graduate completer- received credential

Non-Graduate completer- has acquired sufficient competencies through a program to become employed in field of education pursued or related field as evidenced by such employment.

## **Definition of "employment"**

Employed in field or related field for which trained, entered military or continuing education.

## **Approved reasons for being unavailable for employment**

Pregnancy, serious health-related issue, caring for ill family member, death; refused employment. Schools must provide documentation needed to show that they failed to keep interviews, enrolled in program for personal use, or refused job in field; or seeking employment/status unknown.
